Join us at MVP Dairy and learn about its state-of-the-art technology for caring for a 4400-cow herd and protecting environmental resources. Established in 2019 by the VanTilburg and McCarty families, MVP features 6 tunnel-vented barns, with four hundred 72-inch fans, an 80-cow rotary parlor, and precision ag technologies.

**Tours**
- 80-cow DeLaval rotary milking parlor
- Sand lane and GEA slope screen liquid-fiber separator
- Educational Center, which highlights MVP’s regenerative farming practices

**Speakers**
- Updates: Saturated buffer research and Grand Lake St. Marys | Stephen Jacquemin, Wright State University-Lake Campus
- Legacy phosphorus runoff | Will Osterholz, USDA –ARS
- KDS /Quick wash manure nutrient recovery | Theresa Dirksen, Ag Solutions

**Demonstrations**
- Solid manure application comparison and calibration
- Liquid manure application and incorporation
- Side dressing growing crops with manure
