Join us for an up close look at two unique facilities and learn from the experts.

AGENDA

10:00  **Barnes Composting Facility**, Huron, Ohio
Barnes operates one of the most successful regional composting facilities in Ohio. The Class II facility recycles over 20,000 tons of yard trimmings, food, agricultural and industrial residuals into quality compost. Site highlights include:
- a newly constructed system for surface water control.
- best practices for feedstock handling, including food wastes.
- optimized management of windrows, compost processing and product development.

11:30  **Sawmill Creek Resort**, Huron, Ohio
**Closing the Loop: A panel discussion.** Moderator: Jim Skora, *GT Environmental*
By 2020, the nearly 1.5 millions tons of material dredged annually from Lake Erie ports will no longer be disposed of in the Lake. This change is good for the environment and creates new opportunities for Ohio businesses. Find out:
- what we know about the characteristics of dredged materials.
- about challenges in handling and using dredged materials.
- the approved uses, including in topsoil and concrete, for dredged materials.

12:15  **Lunch @ the Sawmill**

2:00  **Port of Cleveland**, Cleveland, Ohio
Designed and operated in partnership with Kurtz Bros., this unique facility handles the slurry from the port’s dredging operations and creates a saleable product. Learn about:
- how the system works to dewater the sand and silt.
- the facilities’ environmental and economic benefits.
- market opportunities for compost and recovered dredged materials.

**APPROVED CONTINUING EDUCATION CREDITS**
Registered Sanitarians: 3.25 hours
See page 2 for registration and other details.
TRANSPORTATION

Transportation between sites will be by either: Participant’s cars – Meet at Barnes Composting (directions below) or Van pool – Leave from the OARDC/OSU Wooster campus. Leave at 7:30 am and return by 6:00 pm. Space is limited and you must have a reserved spot (see registration form).

Important: We will be outside, so dress for the weather and wear comfortable walking shoes!

Directions to: Barnes Composting, 1630 Camp Road, Huron, OH 44839.

From I-90: Take Exit 118 for US-250 north toward Sandusky. Drive north 2.5 miles. Turn right onto E. Scheid Rd. Drive 1.1 miles. Turn left onto Camp Rd. Drive 3.4 miles. Barnes Composting will be on your right. Turn into the drive and continue to parking area.

Directions to other stops will be distributed at registration.

SPONSORS

The Ohio Composting and Manure Management Program (OCAMM) seeks to research, develop and communicate sustainable strategies for managing animal manure and nutrient inputs on Ohio farms. The program is supported by The Ohio State University’s Ohio Agricultural and Research Development Center.

ocamm.osu.edu

The Organics Recycling Association of Ohio is a non-profit organization that promotes the growth of the organics recycling industry in Ohio encouraging further study, research, advancement, development of composting and organic recycling through professionalism, education, training, information exchange and networking of and networking of the industry and its regulating agencies.
